

# Train-the-Trainer Opportunity

## Law Enforcement Training for Defusing Critical Incidents

ICAT is a new and innovative approach to use-of-force training. ICAT provides first responding police officers with the tools, skills, and options they need to successfully and safely defuse a range of critical incidents. The training focuses on situations involving persons in crisis and those who are unarmed or armed with weapons other than firearms.

Founded on research findings and best practices, ICAT was developed by the Police Executive Research Forum (PERF) with input from hundreds of law enforcement professionals nationwide. It is currently being taught in police agencies of all sizes and in all parts of the country.

Now, PERF is offering train-the-trainer sessions to law enforcement agencies interested in implementing ICAT for their officers.
